

THE ATLANTA CONSTITUTION.

VOLUME XIV.

TUESDAY MORNING, APRIL 24, 1883.

PRICE 5 CENTS

THE CYCLONE.

The Crashing of Thunder and the Clashing of Lightning.

A NIGHT OF RAIN AND FURY.

Destructive Sweep of the Storm Through Five States.

ITS DESTRUCTIVE WORK IN GEORGIA.

The Losses of Life and Damage to Property Disastrous.

The storm of Sunday was remarkable in the upper part of the state for the vividness of its lightning, the superb heaviness of its thunder, the torrents of rain and gusts of hail and wind. In the lower part of the state it was no less remarkable for its deadliness, and for the terrors of its whirling winds. The death roll of this Sabbath night storm, already passes into the hundreds, but the list is not yet completed. It is to be feared that away from the towns or villages, in the depths of forests, many a lonely home was destroyed, and many a human life lost, which the swift records of the wire have not yet reported.

The details of this storm, its course, its character and its effect, with the main incidents of its coming and going, are detailed below by the busy hands of our telegraph correspondents:

In The City.

Beyond an unusual stillness that was noticeable about dusk all over Atlanta there was no premonition of the terrific electric display that was ordained for the night.

At 10 o'clock the horizon as far as could be seen was of ink blackness, cut with frequent flashes of lightning that was dazzling in their assembly brightness, the whole sky was overcast and night was almost literally made into day by the electric display. The lightning was blinding and continued and the roll of the thunder as the unbroken swell of an immense organ. The telephone in all parts of the city rang incessantly. In many cases persons were roused from sleep and sprung from bed under the belief that the house was on fire. Hundreds of families arose, dressed, turned up the lights and gathered in one room to wait for whatever might happen. Peering through the windows, one could see across the street with perfect distinctness, and trace the features of a man hurrying through the storm as clearly as by day. A book of ordinary print could have been read, the falling of the light between flashes being hardly more than the quivering of an ill-fed electric burner.

About 11 o'clock rain began to fall in torrents there was but little wind, the air being close, heavy and surcharged with electricity. Without let or hindrance the rain fell in almost solid sheets and the play of the lightning continued incessant until two o'clock. At that time there were threatening gusts of wind, and shortly afterwards, a sharp fall of hail, the clatter of the myriad of the stones on the roofs barely making an impression on the heavy and unbroken rolling of the thunder. It was after three o'clock before there was any diminution of the storm. Then the lightning passed away almost as rapidly as it had come, the thunder ceased after a few an gusty gusts, and the rain and hail, sobbing fitfully in gusts, stopped entirely. The morning broke balmy and beautiful, and the terrible scenes of the night seemed to those who looked on the freshness and tranquility of the dawn, as a nightmare that was born of sleep and passed away with awakening.

THE DAMAGE IN THE CITY was so slight as to be hardly worth mentioning. It all came from rain—not a fence was blown down or a roof disturbed by wind, and not a point was touched by lightning. The wind was working its destruction in the valleys below us, and the lightning seemed to have spent all its energy in giving us an aurora borealis out of season. A cellar filled here and there—a culvert choked, and a flower yard or sweepaway in the swirling rain—these constitute the sum total of damage done in Atlanta by a storm that in frightful make-up is simply with out equal in the memory of the oldest inhabitant. In Atlanta the storm was a severe one. About four o'clock in the afternoon the clouds began to gather themselves together and to give a threatening appearance to the sky. The weather was people predicted a heavy rain, and before midnight their predictions were verified. About dark an occasional flash of lightning flew upward, the heavy ex, and by eight a slight rain began to fall, but this soon subsided, and only the darkened heavens portended the storm which ensued. Shortly after ten o'clock lightning began to flash and the thunders to reverberate. Then the rain began to fall in torrents for an hour the storm raged. The flashes were quick and blinding, and close upon them came the deafening sound of the thunder. The noise made by the rain added to the fear of those who tremble when a thundershower is raging and altogether the night was a dismal one. Never before, so it seemed did the rain fall so thick and never did the elements battle so desperately. Without interruption the storm continued until about midnight, when a short cessation occurred. But the cessation was brief, and with renewed vigor the rain began to fall and the lightning to flash, and until 1 o'clock the fight went on and then the clouds began to move away from the city, carrying with them the frightful storm which they brought.

When the sun went up, the sky was bright and cloudless, but the streets gave evidence of the storm which had raged the night before. They were free from dirt and the white stones which protruded from the solid earth told that all loose dirt and filth had been washed away. From all parts of the city, as the business men began to move towards the center, came stories of the storm, but when these rumors were factored many of them were found to be groundless, and in a short while it was generally known that Atlanta's loss by the storm and that her citizens would not exceed \$10,000, if it reached it.

The streets suffered some and so did the sidewalks, but none of the public buildings were at all injured. On Whitehall street the sewers broke near Mr. Ladd's store, but so completely did the rain cleanse things in that neighborhood that no inconvenience was experienced by the citizens. On Fair Street, near Phillips, the sidewalk was washed away.

On the south side of the street at that point there is now needed about fifteen feet of sidewalk in addition to the filling of a hole in the street. The contractors who are building the sewers suffered some loss by the caving in of the banks. At the corner of Williams and Church streets a hole was made large enough to sink a good sized house. On Houston street the new paving and curbing was washed away. On Calhoun street gutters were cut by the water as it ran until the street was in a horrible condition. On Bell street a big sign was made while Marietta suffered greatly where the improvements are going on. In no place, however, was the damage excessive, but one of the street commissioners asserts that it will require \$3,000 to put the streets in the same condition they were in before the storm.

Probably the heaviest loss sustained fell upon Mr. S. P. Richards, the Whitehall bookstore man. This gentleman's stock was almost entirely destroyed, and the universal verdict of the booksellers of the city, who have seen \$3,500, is that his loss will not fall short of \$3,500. Mr. Richards occupies the ground floor of a two story building owned by Mr. Holbrook. The second story of the building is occupied by Dr. Thompson, dentist, who also lost heavily by the storm. The roof of the building, it appears from the statement of Mr. Richards' clerks, is flat and has but one "cullet" for water. This was not enough, and the rain went through the roof down to the second floor. Here it spoiled Dr. Thompson's carpet and chairs and other furniture, and then began to drip through the floor into the store below. Finally the dripping began to stream, and yesterday morning when Mr. Richards' clerks opened the front door they were confronted with a flood. Upon the floor the water stood fully three inches deep, while it still came down from the ceiling above in a shower. The counters were packed with books, the showcases and shelves were stacked with hand-some volumes of choice literary productions, and all of these were ruined. Some idea of the extent of the damage may be formed by the statement that the water penetrated and saturated a pile of wrapping paper, seven or eight inches thick, on the counter. Some of the hand-some and costly books published were also ruined, while picture frames and other articles of beauty and value were almost completely destroyed. At present it is almost impossible to approximate Mr. Richards' loss.

Mr. Anderson's grocery store on Marietta street, was flooded but only the goods on the floor suffered as the rain beat in under the door. Several other merchants in various parts of the town opened their doors to be greeted by a flood of water but in no other instance was there a loss of much consequence.

A three-room cottage on Pine street, occupied by Lem Jones, a colored man, was partly unroofed but no one was injured. Two houses, one on Peters street, and one on Elm street, were moved slightly. Mr. Mike Maher lost quite a number of young shade trees which were blown down, and in many other parts of the city trees were uprooted. The Bonanza saloon was also flooded. The pipe which conducted the water from the roof choked up and the water accumulated and soaked through the roof. The handsomely frescoed ceiling was ruined.

Nearly every dam on Sugar creek was washed away, entailing quite a loss upon mill owners. Strange to say no one was hurt during the storm, and no instance of a serious lightning stroke has been reported. Of course the storm interfered with railroad schedules. In addition to those delays reported in the dispatches the Georgia Pacific was interfered with by damage done a bridge at Heflin's station, but workmen were engaged on the structure last night and all is now well. On the Western road of Alabama the bridge across Red Clay creek was found to be unsafe, no train came up yesterday or last night. The train, however, went down as far as Opelika yesterday afternoon, but no train left the city last night. The bridge is a temporary one which is being used while the bridge is going up. To-day the bridge will be made passable and trains will resume their runs on schedule time.

In The State.

It is impossible at present to trace accurately the course of the storm that swept through Georgia on Sunday night. It undoubtedly entered the state near Euflavia, swept across to Dougherty county, peaching northwesterly through Dooly and Dodge counties, then swerving about due north and leaving the state through Elbert county, touching at Crawford in Oglethorpe county. It did not extend as far south as Thomasville or Valdosta, nor as far westward as Tennesse in Washington county. The indications are that it followed the general direction of the cyclones of the past few years in Georgia, which have usually come into the state near Harris county, moved up southeast of Macon, and out of the state north of McDuffie county.

The rain was general over the state and unprecedented in volume and persistence. Bridges are swept away on all streams—hundreds of ponds destroyed—travel stepped on many railroads—and heavy damage, more or less serious, done to the crops. The loss of life is heavy and the destruction of houses by the wind revives the memory of the great cyclone of five or six years ago. Our "specials" below will give an idea of the damage done:

NO LIVES LOST IN BROOKS.

SPECIAL TO THE CONSTITUTION.
FORT GAINES, April 23.—A terrific thunder storm prevailed here this morning from three to five o'clock. A cyclone passed across the upper portion of the county, during the prevalence of the thunder storm, blowing down several houses and much fence, but no lives were lost in this county.

THE DEAD AND WOUNDED IN ALBANY.

SPECIAL TO THE CONSTITUTION.
ALBANY, April 23.—The most terribly destructive tornado within memory passed through lower Dougherty about daylight. The casualties to life and property are very great. On the Kirk place, eight miles below Albany, B. J. Bacon and son were killed. His wife and another son were injured. On the Cruger place, five miles west of the Kirk place, the buildings were all blown away, and one was killed and several badly injured. On Putney's place, across the river, five are reported killed and eight injured. The track of the cyclone was about a quarter of a mile wide from southeast to northwest. The telegraph wires are all down below here. Mr. Bacon is a northern man, and only been here nine months.

CHAS. OF THE DISASTER.

The Fincham settlement, on the east side of Flint river, about eight miles south of Albany, and Hardaway, just across the river in Dougherty, were the scenes of the terrible and destructive tornado at daylight this morning. The noise was distinctly heard in the town and was attributed to the thunder. Shortly after sunrise a few persons came riding into the town for assistance, bringing the first reports of the works of the cyclone. The casualties and damage so far as reported are about as follows: On the Childs place, east side of the Flint, the proprietor, B. T. Bacon, and son, about six years old, were killed by timbers from the dwelling house. Another son, eight years old, was badly hurt. His wife was injured. The dwelling outhouses and cabins are all swept away. Six or

eight negroes were wounded. On the Cruger place one negro boy was killed and sixteen or eighteen hands were wounded more or less seriously. Every building was swept away.

THE DISASTER AT HARDWAY.

At Hardaway just across the river, on Putney's place, every building was swept away except the dwelling house and store, including the gin house, grist and saw mill and sixteen cabins, all new. One child was killed and eight or ten wounded, several of them fatally. All colored. Mr. Henry Calio way, clerk for Putney, saved himself and family by fleeing into the store house. His dwelling was blown to pieces. The track of the storm was about three hundred yards wide at Pincheon, and swept everything in its path. The bark was torn from the trees and everything prostrated in its path across the river swamp. The wounded will be brought up to the buildings on the paper farm here. Physicians from Albany and Athens have been in attendance all day. The Godwin and Wilson and Mathews places in lower Dougherty, were in the track of the storm and suffered severely. Reports of great damage in other places, but nothing definite yet.

THROUGH WEBSTER AND SUMTER.

SPECIAL TO THE CONSTITUTION.
WEBSTER, April 23.—Between three and four o'clock last night a violent hurricane, accompanied by hail and rain passed over the out-fitting portion of Webster and the southwest portion of Sumter counties, stopping as far as can be known, about six miles north of Americus. The lightning was vivid and incessant. The first place the storm visited, as far as I can learn, was Oasby's, two and one-half miles south of Bedford, where it blew down all the houses, fences, barns, etc., but injured no one. Frank Minnie's was next in line and everything was blown away. Minnie and wife both had their arms broken, and a four-year-old child was killed. At Dyne Minnie's, all the houses were blown down but no one hurt. At M. G. Logan's, all the houses are down but the dwelling. Peter Foss had everything blown down but the dwelling. No one was hurt. Dan Foss was next. Back is broken, and everything is down at his place. One negro is reported badly hurt. At S. Lockett's and W. T. Woodruff's, two miles south of Webster, it did its worst. The wind lifted Lockett's house from over his head while the family were preparing to fly. By a miracle none were killed at the time, but his little girl died to-day from her injuries. Lockett is badly bruised. His orchard was swept away. A cow was thrown at least one hundred yards. A valuable mule was crushed to the earth with a broken neck. Lockett's loss will be less than two thousand dollars.

A HARROWING SCENE.

At Woodruff's, not a half mile further on, the scene was harrowing. When the debris was cleared, a group of five, Mr. and Mrs. Woodruff, two children, one a two-week old babe, which was locked in its mother's arms and a nurse were found in a space not ten feet wide. Woodruff and his cousin, Brown Burkhalter, thirteen years old, were sleeping in an adjoining room. When the crash came the husband hastened to his wife and all were killed by a falling chimney. Burkhalter escaped with no injury. At D. C. N. Burkhalter's, a few miles farther, the storm seemed to have ended, but tore up fences and out-buildings like straw. The track of the storm was about three hundred yards wide. It seemed to be a cyclone as it twisted and turned every way. Americus has been with excitement and the people are doing everything to relieve the unfortunate.

THE DISASTER IN WORTH.

SPECIAL TO THE CONSTITUTION.
ALBANY, April 23.—Reports from Worth to-night show great destruction in the track of the cyclone. An immense amount of timber is prostrated in the vicinity of Isabella Station. S. R. Weston, of Albany, has three thousand acres of timber blown down. Nine cabins are prostrated and one laborer was critically wounded. Particulars from Worth are meagre. In pathways of the storm a large number of cattle, poultry in the yards and birds of all kinds. The wounded of Putney's place will number twenty or more, several of them, it is thought, fatally. The storm was the most disastrous ever known. Plow trees were stripped of bark, stumps uprooted. Nothing could withstand its force. The direction of the storm was nearly from west to east, inclined to northwest.

TWO CLONES ABOVE QUINMAN.

QUINMAN, April 23.—A very brisk wind commenced yesterday morning and continued until this morning. Not sufficiently severe, however, to do any material damage. A slight rain yesterday and last night. This morning about seven o'clock I noticed the clouds meeting just above from opposite directions, and the rain poured in torrents for an hour and a half. The hardest rain ever seen by the oldest inhabitant. The rainfall was over five inches per hour. The damage is not considerable. Melons and small cucumbers slightly injured. The rolling lands washed.

CHILDREN KILLED IN EASTMAN.

SPECIAL TO THE CONSTITUTION.
EASTMAN, April 23.—A cyclone passed over us about daybreak this morning, doing much damage. The house of John Register, some three miles from here, was blown down, and two of his children were killed. Samuel Harrell's house, about nine miles from here, was blown down, and Mr. Harrell and his wife were seriously injured, and all their children hurt more or less. All the houses on the premises were blown down. The gin houses, stables and out houses of Jonathan Niles, near by, were laid waste, and some of his cattle were killed. The property of W. A. Coleman, Jr., in the same neighborhood, was also injured. Other damage that is thought was done by the storm. Reports not all in.

LOSS OF LIFE AND PROPERTY.

MACON, April 23.—The heaviest rain in southwest Georgia was attended by a large loss of life and property. Not less than twenty-five deaths are reported, while the number of injured cannot be estimated. The damage to railroads and telegraph lines prevents the gathering of details. No estimate yet can be made of the loss. In many instances there is an entire loss of farm houses, residences, cattle and produce. The dead and wounded are looked after and everything is done that is possible.

NO SERIOUS DAMAGE BY THE STORM.

SPECIAL TO THE CONSTITUTION.
SAVANNAH, April 23.—A very heavy wind storm here last night, followed this forenoon by a fearful rain accompanied by thunder and lightning. The streets were deluged and the rose bushes were whipped to pieces. No serious damage.

TRUCK INJURED AROUND VALDOSTA.

SPECIAL TO THE CONSTITUTION.
VALDOSTA, April 23.—The greatest rainfall we have ever had. No wind. Considerable damage was done to roads and bridges. Crops, especially truck, are materially injured.

RAIN AND WIND AT TENNESSE.

SPECIAL TO THE CONSTITUTION.
TENNESSE, April 23.—The rain was heavy last night and this morning, also a strong gale, but I have heard of no damage.

DARK, ANGRY CLOUDS IN THOMASVILLE.

SPECIAL TO THE CONSTITUTION.
THOMASVILLE, April 23.—A heavy wind on Sunday night, with dark, angry clouds passed north of Thomasville. At daylight Monday it rained in torrents from 6 to 8 a. m. No cyclone is heard from to date. It is beautiful now.

THE WIND IN EASTON.

SPECIAL TO THE CONSTITUTION.
EASTON, April 23.—A heavy thunder storm, with wind and hail, passed over us about 4 o'clock this morning. No damage was done, except on the bottoms from rising water.

SPECIAL TO THE CONSTITUTION.
FORSYTH, April 23.—One of the heaviest rains of the season fell last night. No damage from the wind in this vicinity so far as heard from. Damage by high water was moderate.

THE THUNDER BOARED IN BARNESVILLE.

SPECIAL TO THE CONSTITUTION.
BARNESVILLE, April 23.—A heavy gale accompanied with rain, struck us about midnight last night. It was soon apparent that a storm was brewing, and the wind and rain increased in fury until about 1 o'clock when the climax was reached. The wind howled, the lightning seemed to flash almost incessantly and one of the heaviest rains ever known here fell for about one hour, accompanied with large hail. Everybody across this morning expecting to find something blown down, but strange to say no damage at all was done in this vicinity. South of here the storm was more severe and slight damage was done.

CULVERTS WASHED OUT.

SPECIAL TO THE CONSTITUTION.
GRIFITH, April 23.—Considerable damage was done on the Savannah, Griffin and North Alabama railroad last night by the heavy rain storm. The culverts at 43½, 45½ and 47½ were washed out; also the trestles over the Griffin and Turkey creeks, and two more big washes between Newnan and Sharpsburg. Quite a force have been sent up the road to repair the damage, but it is thought it will be at least three days before trains can run through. The biggest washes known in the history of the road. No damage in Griffin by the road.

ALONG THE EAST TENNESSEE ROAD.

SPECIAL TO THE CONSTITUTION.
STOCKBRIDGE, April 23.—The storm last night was general from Atlanta to Macon. The oldest residents say it was by far the hardest rain ever fallen in this country. Milldams and bridges nearly all gone, the water moving them with the greatest ease. Corn and cotton greatly washed out. The rivers and creeks are higher, and the bottoms are covered deeper with water than they have been for fifty years. The lightning was terrific, the flashing making everything as bright as day and the continual roar of the thunder frightening even the bravest. So far I have heard of no deaths. At Locust Grove the operator's instrument was torn to pieces. At McDonough green pine plants were set on fire in the telegraph office. 11 feet Macon at 8:15 on the East Tennessee, Virginia and Georgia

THE TRAIN DITCHED.

We had nothing to interrupt us to McDonough, which point we reached on time; here we received a telegram stating a freight train had been ditched in a washout near Hollingsworth's mills, but our passengers would be transferred. A few minutes after leaving McDonough our train came to a sudden halt on the long trestle over Pate's creek. Together with conductor Gurley, I crawled over the engine and went forward to see what was the matter. In one hundred feet of washout our train had been suddenly stopped by a skilful and experienced engineer, a bent of this high trestle had been undermined and dropped six inches. While we were examining it the heavy timbers cracked like pistol shots and sunk three inches. Many fine fish ponds were washed away, and thousands of fish from the o'd ponds were washed on land and destroyed. Many were caught by the peck. There are several washouts between this point and Atlanta. The electric superintendent, T. Lindsey, is hard at work with a large force of hands, and will have the track all right and trains running by Wednesday.

LOWER THAN THE HILLS IN DALTON.

SPECIAL TO THE CONSTITUTION.
DALTON, April 23.—The heaviest rain known here for a long time fell last night. It began about dark, and the fast flowing clouds aroused fears that there would be a cyclone. The clouds were very low—lower than the tops of the surrounding hills. The wind was very high, but not high enough to do any considerable damage in this immediate vicinity. The rain fell in torrents until midnight, and the streams all over the county are swollen, many of them out of their banks, and damaging the crops. Conductors on the Western and Atlantic, and on the East Tennessee, Virginia and Georgia, report the rivers and the creeks along their routes very high and the farmers apprehensive of much loss. Many fences between here and Chattanooga are down and some between here and Rome. The storm was accompanied by terrible thunder and almost incessant lightning. Several trees were struck near here.

VIDE IN CALHOUN.

SPECIAL TO THE CONSTITUTION.
CALHOUN, April 23.—This section was visited by one of the heaviest rains which has fallen here for some time. It began to rain about dark, the 23d, and rained continually till about 12 o'clock, accompanied with constant, vivid lightning and most terrific thunder.

FOUR AND A HALF INCH RAINSTONES NEAR ROME.

SPECIAL TO THE CONSTITUTION.
ROME, April 23.—A terrible cyclone passed over this section of this county, twelve miles north of Rome, yesterday afternoon at four o'clock, uprooting timber and unroofing eleven houses. Several families were left shelterless during the fearful rain and hailstorm which followed. At the same hour a very hard hailstorm prevailed over the city, covering the ground with hailstones, actually measuring four and a half inches in diameter. The Oostanula river has risen eight feet since the hard rain. The accommodation train, due here at 7:30 this morning, ran off the track near Talladega last night, ditching seven freight cars. No one hurt. The heavy rain last night caused a washout on the Alabama division near Childersburg, delaying all he trains several hours.

WASHED AWAY IN CLAYTON.

SPECIAL TO THE CONSTITUTION.
JONESBORO, April 23.—The heaviest rain that has fallen in a number of years, accompanied with severe wind, fell at this place last night. Farms and gardens, greatly damaged by the washing rain. One or two bridges between this and Fayetteville, also several mill dams in the county are reported washed away.

SEVERAL WASHOUTS NEAR NEWNAN.

SPECIAL TO THE CONSTITUTION.
NEWNAN, April 23.—On the Griffin and Carrollton road there are five washouts, aggregating three hundred feet. Trains can't run through in a week. Damage over ten thousand dollars.

SCATTERED AROUND IN CONYERS.

SPECIAL TO THE CONSTITUTION.
CONYERS, April 23.—Conyers, hitherto seemingly out of the track of storms, was visited this morning with a hurricane from the southwest, which carried alarm and destruction in its path. Yesterday evening the clouds swelled about rather ominous, but with the close of day, the sky was nearly clear. At 11 o'clock it began to rain, and at one the destructive messenger roused our citizen from their pleasant slumbers. The roof of Dr. Glenn's dwelling was carried a distance of some 50 yards. Robert Fleming's house was blown down on the family. None

of the inmates were injured, save himself, slightly. George Young, colored, and family were borne along with their cabin some 25 yards. Then himself, wife, children and all his appendages were scattered around promiscuously as playthings of the heartless winds.

FINDING HIS CHILDREN BY LIGHTNING.
After some time he succeeded in picking up his children by the aid of the lightning's incessant glare. George was wounded on the shoulder. The top of John Green's barn was carried hence, and the contents of the building exposed to the pelting storm.

William Marbot's kitchen was demolished and his dwelling twisted considerably around. The chimney of Warren Maddox also succumbed to the war of elements. Trees, fences, vehicles and palings are now lying scattered around in a general wreck. The track of the storm would seem to be about five hundred yards wide. The wind in its fury did not blow more than about fifteen minutes, but the rain continued to pour in torrents until daylight this morning. Through the watchful care of a kind Providence no lives were lost.

FENCES TORN UP IN DEKALB.

SPECIAL TO THE CONSTITUTION.
DECATUR, April 23.—We had an exceedingly heavy rain, accompanied with an unusual amount of wind and lightning at this place last night. Considerable damage done to fences in this part of the county.

STUNNED BY LIGHTNING.

SPECIAL TO THE CONSTITUTION.
COVINGTON, April 23.—Yesterday afternoon when returning from a visit in the country Messrs. Cole, Irby, Steve Davis and George Hall were struck and stunned by a bolt of lightning. The horse they were driving was knocked down and lay stunned for several minutes. A large tree near 'em been blown into splinters. The young men have almost recovered but they had a narrow escape from a sudden death. After a day of alternate clouds and sunshine last night closed in upon our city dark and threatening. About twelve o'clock the heaviest rain storm that has ever visited our section broke upon us, and for several hours the rain poured in torrents; heavy wind accompanied with loud peals of thunder and almost constant flashes of lightning. For several hours this storm raged and nearly every one in our city was awakened and in great terror, for all thought our little city might be doomed. The creek running through our city rose to an unprecedented height, and all save one bridge spanning it is washed away. Great damage is done to fencing, lowland, etc. Crops are very much injured from washouts, etc. The culbert east of the Georgia railroad depot is considerably injured, and will doubtless be torn down and rebuilt. It is estimated that the damage done private and city property in our city will amount to three or four thousand dollars. The wind south of this place did much damage, blowing down a good many cabins, smokehouses and fencing. No one injured so far as we have learned.

THROUGH WALTON COUNTY.

SPECIAL TO THE CONSTITUTION.
MONTGOMERY, April 23.—A terrible rain storm in this county last night. Worse at Social Circle than at this place. Mr. Spencer's mill dam were all washed away, and that gentleman has sustained a loss of about \$2,000. The frame of a new house at this place was blown fifteen feet and smashed to pieces.

NOT A STICK OF TIMBER LEFT.

SPECIAL TO THE CONSTITUTION.
ATHENS, April 23.—A heavy hail storm fell Sunday afternoon in the lower part of Clarke, doing much damage to the fruit and young crops. On Sunday afternoon between five and six o'clock, a cyclone passed about one mile above Crawford, fifteen miles below Athens. A. W. Wilkin's new residence was blown from the pillars and badly wrecked. The colored Baptist church was torn to pieces, not one stick of timber being left upon its floor. Trees were stripped of fruit and leaves, forests demolished and fencing blown down. Its track was very narrow.

IMMENSE HAILSTONES IN ELBERT.

SPECIAL TO THE CONSTITUTION.
ELBERTON, April 23.—A cyclone passed over the southern part of Elbert county about eight o'clock last night, sweeping everything in its path. Several dwelling houses were blown away. It was about 100 yards wide and came from the southeast. Immense hailstones accompanied it. No loss of life is reported.

Leaving The State.

WRITING BY LIGHTNING.
GREENVILLE, S. C., April 23.—The city was a blaze of electricity last night. In the Marshall house, Mr. C. B. Lewis, (M. Quad of the Detroit Free Press), was one of the guests. He arose at midnight, and by the light of the electricity wrote a two-page letter to his paper.

The Course of the Storm.

SPECIAL TO THE CONSTITUTION.
WASHINGTON, April 24.—H. W. Grady: The storm which passed through your state on Sunday night was part of a general storm then prevailing in the southern states. It passed eastward and is now central off the North Carolina coast, causing heavy northeasterly gales. This storm was first observed in northern California on the morning of the nineteenth, and moved directly southeastward to Tennessee, causing high winds and heavy rains in all districts east of the Rocky mountains, followed by snow in Kansas, Nebraska and Colorado. Frosts are indicated to-night for the northern states and portions of Virginia and Kentucky.

The Storm Elsewhere.

SPECIAL TO THE CONSTITUTION.
NEW ORLEANS, April 23.—A Times Democrat Weston, Miss. special says a frightful cyclone passed over Weston and the town of Beauregard, a mile above, about four o'clock yesterday afternoon. The wind for the past three days had been blowing a gale and the lowering clouds indicated a storm. Its approach was known for some minutes by the deep rumbling sound, windows in dwellings shaking with violence, and many people thought it was an earthquake. Thunder roared and lightning flashed with alarming force and vividness. Fences were torn down, trees which had stood storms for years were uprooted, and cast a hundred yards away. East of the railroad in Weston the damage was light but in the western portion the town is in destruction. It was awful in character. As soon as the storm had somewhat abated and the people began to look about, the loud peals of the church bells were rung out. The people were seen to be running in all directions towards west Weston. The rain meantime was pouring in torrents.

AN INDESTRUCTIBLE SCENE.

Reaching Peach Orchard street, an indescribable scene was witnessed. This street is lined with a large number of houses, in which the occupants of the Mississippi mill are domiciled and here the greatest destruction occurred. People were seen on all sides sobbing, and the groups of the wounded beneath the ruins were perfectly appalling. Dwellings were torn to atoms. The pine forest just beyond was blown out of existence. The work of removing the dead and extricating the wounded from the ruins has been going on for some time. Calvin Reed, living in the vicinity, died from excitement. Drs. Seaton, Reese and Butler were

soon upon the scene and did all in their power to relieve the suffering of the wounded. It is estimated that the number of killed is twelve. Two or three children are missing. One hundred and fifty or two hundred dwellings were blown down. The number of people with broken limbs is estimated by the physicians at 75. The wounded were removed as fast as possible to the houses which escaped injury. Several dead lay out in the violent rain for more than an hour after the storm. The dead are all now laid out and coffins are being made for them. The milled will not run to-day. The citizens are doing all in their power for the wounded, many of whom it is feared will die. A special train with physicians from McDonough city and Brookhaven has arrived. Another extra special train will be here with additional help from Magnolia and Summit. Some of these physicians will go to Beauregard, where the destruction to life and property is simply indescribable.

THE KILLED AND WOUNDED.

Among the killed in Weston are Mrs. Conby and two children. Several children of J. E. Gibson, one of whom was found crushed under the chimney. Two persons were so mangled as to be unrecognizable, and several others whose names could not be obtained in the confusion. A little boy was found in the woods several hundred yards away unharmed. Weston, except in the locality mentioned, suffered little, except a general destruction of fences and trees. The dead will be buried to-morrow. Beauregard was visited last evening. It is only one mile above here and lay in the direct path of the cyclone. It is absolutely appalling. Beauregard is no more. It is in truth a mass of ruins. It is with difficulty that one can ride through, so thickly are the trees strewn across the road. There is not a house of any character standing in the place. Two brick stores, of Thomson & Co., and McDaniel & Co., the largest in the place, are swept away. The timber is scattered for miles around. Even out in the country, two and a half miles, the dwellings were swept away.

TEN PERSONS KILLED IN STARVILLE.

SPECIAL TO THE CONSTITUTION.
STARVILLE, April 23.—One of the most destructive cyclones that ever struck this country passed two miles north of here yesterday evening about 2 o'clock, blowing houses all to pieces, fences and trees, killing a negro woman and child, also wounding several whites and blacks that will probably die. Those that are damaged are Dr. E. P. Connell, Dr. J. S. Montgomery, W. H. Curry, Rev. David Presley, Johnson T. Montgomery, Willy Cline and a good many negroes, who owned small places. All the houses on Dr. Connell and Montgomery's places were blown off. The corn and fodder that was in the barns was blown entirely away. W. H. Curry's dwelling was blown off, leaving nothing but the floor. Several fine cows were killed that belonged to Dr. Montgomery. The wind came from the southwest going in a northwest direction striking one mile south of Aberdeen at a place called Beauregard, blowing away ten houses there, killing ten negroes, and wounding about thirty. We have had a signal office there for a year, and have had two storms in the last month, but the observer has never predicted a storm yet that any one knows of. It is impossible to give a correct estimate of the damages now, but think it a great deal over \$10,000.

SEVERAL PERSONS KILLED.

SPECIAL TO THE CONSTITUTION.
JACKSON, Miss., April 23.—On the Natchez and Columbus railroad, the town of Tillman was destroyed and several persons were killed and wounded. On the Vicksburg and Meridian railroad, the town of Lawrence suffered terribly. Reports from other places and from the country show that the storm was widespread and very destructive. Telegraph lines were blown down for miles.

HUMPHREYS CASTLEMAN BROKER

AND DEALER IN ALL KINDS OF
STOCKS AND BONDS
OFFICE,
No. 10 East Alabama St.

STATE OF GEORGIA BANK

CASH CAPITAL \$100,000.00

NEW YORK, April 23.—Speculation on the stock exchange to-day has been dull and irregular. At opening the market was weak and 1/4 to 1 per cent below the closing figures of Saturday. In the early deal there was a recovery of 1/4 to 1/2 per cent, led by New Jersey Central, after which another decline took place, ranging from 1/4 to 1/2 per cent, the latter for Louisville and Nashville, and Wabash preferred. About 11:30 this was recovered, when the market again became weak on a small volume of business, and shortly after midday fell off 1/4 to 1/2 per cent, led by Canada Southern. Subsequently prices rallied to 1/2 per cent, but at 12 o'clock this was partially lost. During the last hour prices improved, and the market closed firm. The closing prices compared with those of Saturday are irregular, but the changes were only fractional. Transactions aggregated 286,000 shares fractional.

Following are the closing prices of the principal securities:—
U. S. 5s, 1891, 104; 1892, 104; 1893, 104; 1894, 104; 1895, 104; 1896, 104; 1897, 104; 1898, 104; 1899, 104; 1900, 104; 1901, 104; 1902, 104; 1903, 104; 1904, 104; 1905, 104; 1906, 104; 1907, 104; 1908, 104; 1909, 104; 1910, 104; 1911, 104; 1912, 104; 1913, 104; 1914, 104; 1915, 104; 1916, 104; 1917, 104; 1918, 104; 1919, 104; 1920, 104; 1921, 104; 1922, 104; 1923, 104; 1924, 104; 1925, 104; 1926, 104; 1927, 104; 1928, 104; 1929, 104; 1930, 104; 1931, 104; 1932, 104; 1933, 104; 1934, 104; 1935, 104; 1936, 104; 1937, 104; 1938, 104; 1939, 104; 1940, 104; 1941, 104; 1942, 104; 1943, 104; 1944, 104; 1945, 104; 1946, 104; 1947, 104; 1948, 104; 1949, 104; 1950, 104.

PHILLIPS & CREW'S
BOOK
BINDERY.
BLANK BOOKS MADE TO ORDER.
Leave orders up stairs No. 19 1/2 Broad street or at
our Book Store, Marietta street.
THE OLD BOOK STORE.
8 WALL STREET, Kimball House Block.

It is a well known fact to the literary
world that the demand for old, rare books is
now unprecedented. I offer to the citizens of
Georgia an opportunity to purchase never
before presented. Have just purchased from
Wilkes county the finest private library in
Georgia, 4,300 volumes. With the addition
of three smaller libraries added to my stock
of 40,000 volumes, gives buyers a selection
never before presented in the south. An in-
spiration solicited. School books a specialty.
Catalogue free. Respectfully,
W. B. BURKE, Prop.

H. S. D. BERRY, M. D.,
PHYSICIAN AND SURGEON.
Office over Chamberlin, Boynton & Co.'s En-
trances on Whitehall and Hunter streets. Office
hours 9 to 11 a. m., 2 to 4 p. m. Residence 500
Whitehall street.
